# KUNGSFORS

Series

## Smart storage gives flow in the kitchen

The KUNGSFORS series offers open storage that gives utensils, spices and recipes their given and visible place on the wall. Organised utensils means more space and a better flow in the kitchen, so that cooking is easier. The series is inspired by restaurant kitchens and adapted for both small and large home kitchens. The different parts are also designed to be combined in a variety of ways – to meet different needs.

All the products (shown here) may not be available at the store. Please contact the staff or look at [www.IKEA.in](http://www.IKEA.in) for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly. All the prices in Buying Guide are subject to change at the sole discretion of IKEA INDIA PVT LTD.

# GOOD TO KNOW

## GOOD TO KNOW

You can build KUNGSFORS as a system with the parts and features together in a combination, or mount them separately to the wall – just remember to use the included fittings. If you build KUNGSFORS as a system, screw in and fix the suspension rail once and then simply click in the parts you want, such as a shelf, rail or magnet knife rack. You can then adjust the position of the parts on the suspension rails whenever you want, without making more holes in the wall.

## CARE

The parts in KUNGSFORS are made of stainless steel, and also a shelf in ash veneer. You can wipe all parts with a cloth moistened with a mild cleaning agent and then dry with a dry cloth. Remember to always wipe stainless steel surfaces in the longitudinal direction of the surface. Also avoid using scouring powder, steel wool and hard or sharp objects since it can scratch the stainless steel surface.

## SAFETY

Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home, sold separately.

# HOW TO BUILD

You can use the different parts of KUNGSFORS freestanding or combine them as a system which you mount with the help of the suspension rails. Below you see the different ways that you can use KUNGSFORS.

## KUNGSFORS without suspension rails

If you want a flexible solution, you can mount items of KUNGSFORS directly on the wall freestanding and furnish your wall just the way you want.

## KUNGSFORS with suspension rails

To build KUNGSFORS as a system, you need at least two suspension rails that you mount into the wall. You then choose the parts you want in order to create your personal storage solution. You click the parts in place to the

suspension rails and can then adjust the height and replace or add parts whenever you want, without having to make new holes in the wall.
